AI Engineer | Full Stack Developer | Data & ERP Solutions

AI Engineer and Full Stack Developer with experience building AI-enabled applications, ERP workflows, migration systems, and modern web platforms using Python, Next.js, React.js, FastAPI, Supabase, SQL, and LLM-based workflows. Worked across AI chatbot systems, ERPNext data migration, ML projects, cloud deployments, and full-stack application development. Additional background in IoT systems, embedded electronics, Brain-Computer Interface research, customer support, logistics operations, and cross-functional technical environments.

Technical Skills

AI / Machine Learning: Machine Learning, NLP, Forecasting, Recommendation Systems, Prompt Engineering, LLM Workflows, RAG Concepts, Deep Learning, QCNN, Hybrid Quantum ML

Frontend: React.js, Next.js, React Native, JavaScript, TypeScript

Backend: Python, FastAPI, REST APIs, Supabase

Databases: PostgreSQL, MongoDB, MariaDB, MySQL, MS SQL Server

ERP & Data Systems: ERPNext, Frappe, SQL Migration, Data Cleaning, ETL Workflows

Cloud & Deployment: VPS, Hostinger, AWS Basics, Streamlit Cloud, Git/GitHub

Libraries & Tools: Scikit-learn, TensorFlow, PyTorch, PennyLane, OpenAI APIs, MATLAB, SAP

IoT & Embedded: Arduino, NodeMCU, Raspberry Pi, PCB Design, Sensors, VHDL, FPGA Basics

Professional Experience

Full Stack Developer Intern | Aiwoox / Navocent Technologies

Aug 2025 – Apr 2026

- Worked on AI-enabled applications including personalized medical chatbot workflows and ERPNext business systems.
- Built frontend and backend workflows using Next.js, React.js, React Native, Python, FastAPI, and Supabase.
- Worked on stock trading platform workflows including Supabase integration, subscription workflows using Razorpay, deployment support, and environment migration.
- Participated in LLM and RAG-based application workflows before transitioning into ERPNext migration projects.
- Built deployment and update workflows across VPS and Hostinger environments.
- Worked on ERPNext/Frappe reporting and SQL-to-MariaDB migration workflows.
- Developed Python scripts for extracting, cleaning, transforming, and migrating client data from MS SQL Server into ERPNext systems through APIs and import workflows.

Data Scientist Intern | Aivariant / ExcelR

Jan 2023 – Jun 2024

- Built machine learning projects involving classification, forecasting, recommendation systems, and clustering.
- Developed customer churn prediction models using feature engineering and supervised learning techniques.
- Worked on NLP-based comment classification using TF-IDF and machine learning algorithms.
- Performed data preprocessing, feature selection, exploratory analysis, and model evaluation.
- Participated in recommendation system and forecasting projects using Python-based ML workflows.

Warehouse Operations & Logistics | UNICEF Denmark

Oct 2022 – Jun 2024

- Managed warehouse and logistics workflows supporting humanitarian medical supply distribution.
- Worked with SAP systems for inventory tracking, order handling, and logistics coordination.
- Supervised packaging, dispatch, and operational support activities.

Student Researcher | NSIC Hyderabad

Jun 2018 – Sep 2018

- Worked on IoT and embedded systems projects using Arduino, NodeMCU, Raspberry Pi, sensors, and wireless communication modules.
- Developed automation and electronics prototypes for embedded applications.
- Participated in PCB design and hardware integration workflows.

Research Assistant – Brain Computer Interface | University of Glamorgan

2011 – 2012

- Worked on EEG-based Brain-Computer Interface research using MATLAB and EEGLAB.
- Participated in signal processing, FPGA, VHDL, PCB, and embedded electronics workflows.
- Contributed to research involving EEG analysis related to humor and memory recall.

Customer Support Engineer | Aforeserve Pvt Ltd

Dec 2009 – May 2010

- Installed, tested, and troubleshoot networking and hardware systems.
 - Provided onsite technical support and customer service.
-

Selected Projects

AI Medical Chatbot

- Worked on AI-enabled medical chatbot workflows using React.js, Python, FastAPI, and LLM integrations.
- Participated in prompt engineering and RAG-oriented workflows for contextual AI responses.

Stock Trading Platform

- Worked on frontend/backend workflows using Next.js and Supabase.
- Integrated subscription workflows using Razorpay.
- Supported deployment and update workflows across VPS and Hostinger environments.

ERPNext Data Migration Workflow

- Built Python-based ETL and migration workflows from MS SQL Server into ERPNext/MariaDB.
- Cleaned and transformed raw datasets before ERPNext import.

Telecommunications Customer Churn Prediction

- Built machine learning classification workflows for churn prediction.
- Worked on preprocessing, feature engineering, and model evaluation.

NLP Comment Classification

- Developed NLP classification workflows using TF-IDF and machine learning models.

Oil Price Forecasting

- Worked on forecasting models and time-series analysis workflows.

Recommendation Systems

- Built recommendation system workflows using collaborative filtering concepts.

Hybrid Quantum-Classical Machine Learning

- Worked on QCNN, QViT, ANN, CNN, and hybrid QML benchmarking.
- Used MNIST and Fashion-MNIST datasets for experimentation.
- Worked with PyTorch and PennyLane-based quantum ML workflows.

Education

M.Sc – Electronic Product Design

University of Glamorgan | 2011 – 2012

B.Tech – Electronics & Instrumentation Engineering

JNTU Affiliated Institution | 2003 – 2008

Certifications

- Quantum Computing with Machine Learning, Gen AI & Agentic AI
- Data Science & Machine Learning Certification
- SAP UI5 / SAP Fiori / SAP ABAP NetWeaver
- Design Engineer Certification – IoT & Electronics
- CCNA | MCP | MCSE

Additional Experience

- Technical support, customer service, and networking support experience.
- Experience working in multicultural environments across India and Denmark.
- Volunteer experience supporting PC and internet systems.
- Exposure to sales, customer-facing operations, logistics coordination, and operational support roles.

Languages

English (Fluent) | Telugu (Native) | Danish (Professional Working) | Hindi (Professional Working)
